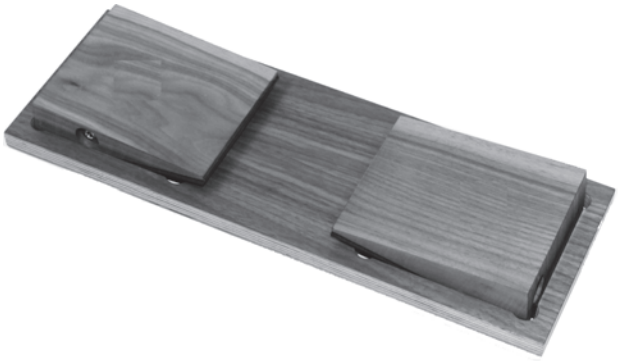
Manual

Finhol™ Kick Cajon™



Congratulations and thank you for purchasing a FINHOL product. FINHOL produces at highest standards.
All FINHOL products are strictly quality-inspected before delivery.

The Kick Cajon™ is the first cajon which can be played complete with one or two feet on real sample basis.

The system has a modular design.

Both treads for High-Cajon & Low-Cajon can be played with the heel and ball of the foot.

The treads are loosely inserted, so you can take them optionally out and play with two feet.
